### **Learning Tools**

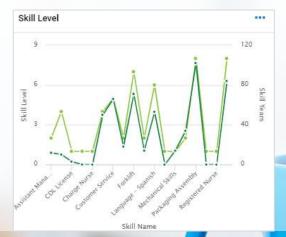

#### Train New Hires and Develop Existing Talent

Manage required certifications and training, track course registration and enrollment, schedule learning activities, and monitor progress – ensuring you have the right employee in the right place at the right time, with the right training.

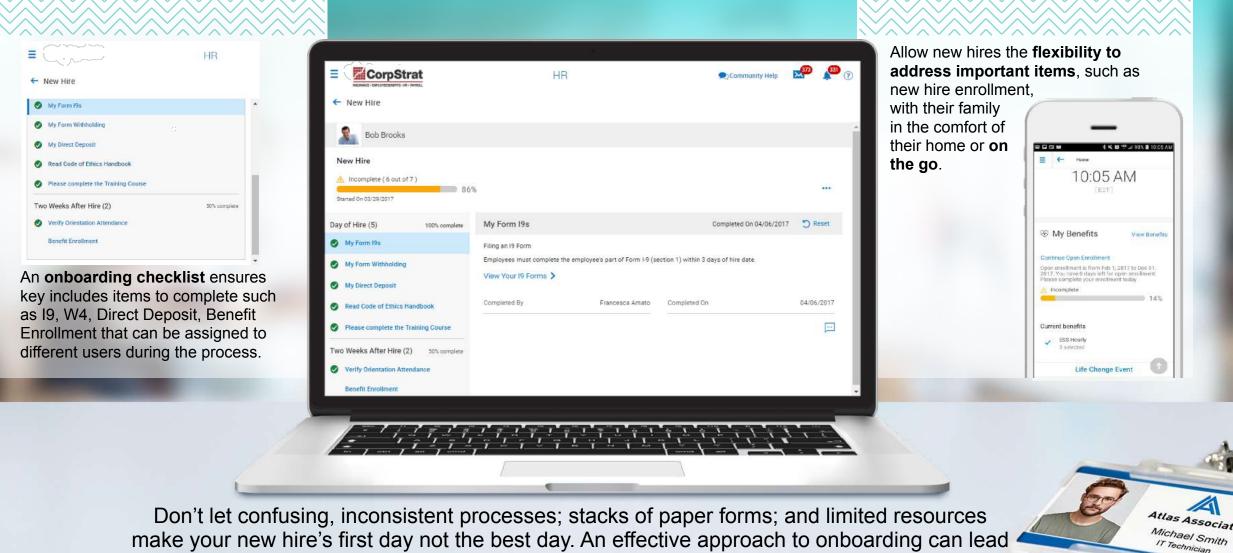

**Build a learning plan** in the solution by assigning individual employees or work groups to relevant training material. Easily track and analyze outcomes to ensure learning targets are met.

Manage the delivery of employee training, from administration and registration to content delivery and tracking to enhance employee development and maintain productivity.

### Onboarding

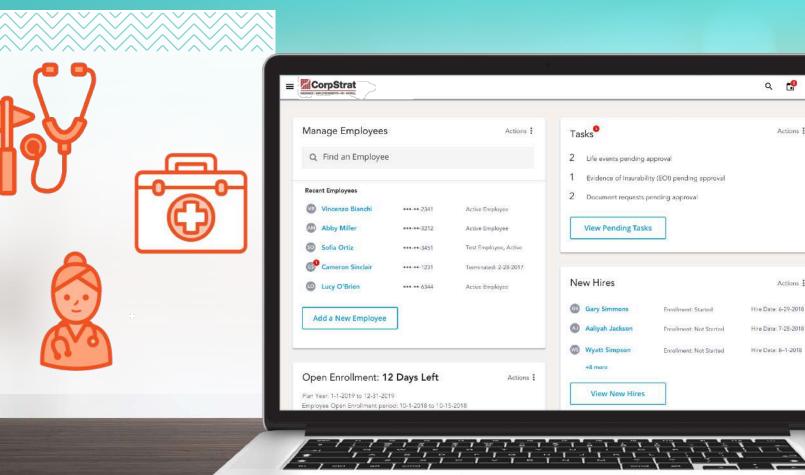

#### Deliver a Consistent and Engaging Onboarding Experience

make your new hire's first day not the best day. An effective approach to onboarding can lead to better new employee retention, reduced turnover, and faster time to productivity.

### **Benefits Management**

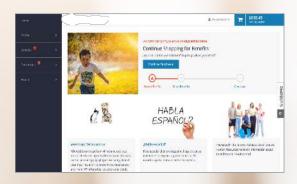

Benefits Covered from Start to Finish

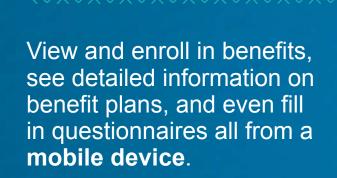

With a modern, mobile-friendly experience and customizable tools and educational content, employees easily understand their options and make the right choices based on their unique needs through comprehensive education and personalized recommendations.

Actions 1

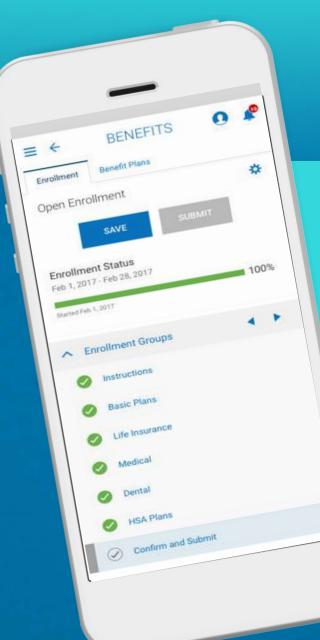

Actions :

Administering benefits can be complicated, and costly for employers when not done right. To facilitate benefits education and communication, manage eligibility, automate enrollment, manage carrier billing, and adhere to Affordable Care Act (ACA) requirements - organizations need technology.

### **Position Management**

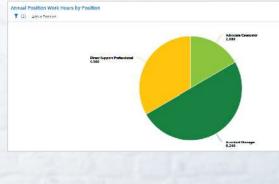

Manage Your Workforce, Your Way

Flexible position hierarchy charts streamline administration and ensure accurate tracking of employees assigned to multiple positions that may require different pay rates, funding sources, allowances, time off, benefits, and deductions for different positions.

Complete automation eliminates timekeeping errors, while **real-time calculations** help maintain compliance and payroll accuracy.

**Confirm employee eligibility** for paid and unpaid leave based on vacation, sick time, and other criteria.

Managers are **automatically notified** when employees exceed established thresholds to help ensure compliance.

Disparate systems and inefficient time and attendance, and data collection processes, can slow growth and frustrate employees. Integrating these processes can **boost employee productivity** while providing real-time insight into labor data to help control costs and reduce compliance risk.

### Mobile Time and Attendance

Mobile accessibility gives employees immediate access to their HR, schedule, and pay data. Employees can punch in and out with GPS coordinates, change cost centers/labor transfer, submit timesheets, and view their schedules, time-off and leave-of-absence calendars, accrual balances, and pay statements real-time.

Employee absence can have an enormous impact on your organization affecting costs, productivity and even morale. Consistent absence and leave policy enforcement eliminates risk for litigation and noncompliance with local, state, federal, and organizational policies and regulations.

### **Scheduler**

#### Put the Right Person in the Right Place at the Right Time

Automatically fill open shifts with the right people, based on predefined criteria such as availability, preferences, skills, certifications, union rules, labor laws and more.

Run forecasted versus scheduled coverage reports and **use historical volume data to better manage workload** for future schedule periods.

Automatically generate best-fit schedules based on your organization's unique requirements to help control labor costs, minimize compliance risk, improve productivity, and drive employee engagement.

### **Self-service Scheduling on Mobile**

Self-service scheduling options are available on a mobile device adds a layer of **convenience for employees**. They can swap shifts, request coverage, and even request an open shift for extra hours. All rules and requirements remain enforced by CorpStrat.

### Accruals

#### Improve Accuracy and Consistency with Automation

With one-stop access to detailed accrual information managers can make fast, informed decisions that effectively balance employee requests with coverage requirements.

**Employees can check their accrual balances on various devices** to make sure they have earned time off available before making a request.

6

Tracking time-off accruals manually can be a tedious and error-prone process. Automation eliminates manual errors; supports fair policy enforcement; **and gives employees and managers instant visibility** into current status to streamline time-off requests and approvals.

### **Attestation**

#### Drive Engagement and Compliance with Flexible Attestation Tools
